## Synopsis

---

author	Aila Skye
readBy	Alexa Teebo
inLanguage	english

Bored and unsatisfied, North Carolinian college student Susan Carter cuts off her relationship with her classmate George. Susan soon gets an invitation from her former roommate Heather to travel to the scenic city of Edinburgh and takes the chance to spend part of her Summer there. Little does she know that she'll end up running into Scotland's most eligible bachelor Daniel (Danny) McThwaites at an exclusive movie premiere.

After the two of them hit it off, their relationship slowly blooms. Now Susan must juggle the choice of extending her vacation in Scotland or returning to America.

A tale about balancing your heart and your mind while living one's best life, *Whiskey Flame* is an homage to the beauty of Scotland.
