While on vacation, Hayden Blake and his ex-boyfriend get into an ugly argument. Needing some space, Hayden storms out of their rented cabin and gets not only lost in the dense woods of the Upper Peninsula of Michigan, but injured, as well. Being rescued is a miracle, but being rescued by a man who looks like a Norse god wearing plaid...that's a dream come true.

All Kurt Jorgenson wants is to go hunting and bag a sizable deer, but instead, he finds Hayden Blake, a city boy lost in Kurt's forest. He takes Hayden home to care for his injuries, but Kurt finds himself drawn - in ways he hadn't dreamed existed - to the young man he's rescued and installed in his spare bedroom.

Kurt yearns to be everything Hayden needs, but he doesn't know where to start. Hayden desires Kurt and longs for a home, but he's not sure he has anything worthwhile to offer in return. However, with the help of a nosy librarian, a trip to Walmart, a pig named Wilbur, and cops bribed with cheese, Kurt and Hayden may find their way to a well-deserved happy ending.

Wild by Nature is a romance novella with a displaced twink, a confirmed bachelor, improper library behavior, pasties, shirtless wood chopping, fuzzy cows, and gas station pizza. It contains men falling in love, falling into bed, and just falling. Not necessarily in that order.

Note: This version has been expanded to include a new epilogue.
