

Witness to Roswell, 75th Anniversary Edition

: Thomas J. Carey, Donald R. Schmitt, Edgar Mitchell - foreword, George Noory - aft

2026-06

Synopsis

author	Thomas J. Carey, Donald R. Schmitt, Edgar Mitchell - foreword, George Noory - afterword
readBy	Charles Constant
inLanguage	english

This classic in the field of ufology is filled with hard-hitting eyewitness testimony of one of the most important events of all time: the actual recovery of a UFO outside of Roswell, New Mexico, in 1947. For more than seventy years, government authorities have led us to believe the wreckage was merely a very conventional weather balloon - but the witnesses who were there continue to tell a different story.

Witness to Roswell once again provides a "can't put down" written account of what really transpired in Roswell decades ago. This edition includes:

- A growing litany of deathbed confessions describing the "little people" recovered.
- The identity of the Boeing engineer called in to examine the exotic wreckage from the crash.
- What really took place at the Roswell base hospital and what nurse actually ordered the children's caskets.
- The story of the soldier who wore gloves at the dinner table after guarding the "bodies."

One need only look at the fact that officials now have four explanations for this historic event - but to which one do all the witnesses testify on their deathbeds?
